

## For Better Retirement Living

March 12, 2021

Dear Augustine House Community,

Spring is coming and we are more able to venture out doors. This has been acknowledged by Dr. Henry with changes to the Provincial Medical Health orders regarding gatherings outdoors. That being said, there has not yet been any changes announced to visiting protocols by Fraser Health Authority for our community at Augustine House. Some of you may have heard of changes that have been instituted within Vancouver Coastal Health Authority around visits and immunizations. We are hopeful that Fraser Health Authority will follow suit. At this writing we continue to be instructed to permit one Designated Social Visitor for residents and visiting is to take place in designated areas. As soon as there is any change in this, we will let you know.

We are looking forward to St Patrick's Day celebrations, with the traditional Irish Coffees and Guinness, along with Irish stew and music. Is it possible to celebrate St. Patrick's Day without music?

We are hopeful that the vaccine roll-out will proceed quickly and allow for greater movement onto and off of our campus. The onus is on us all to do our part.

Don't wait; Vaccinate!

Yours,

Jackie Reiners

Executive Director.
