

For Better Retirement Living

March 25, 2021

Dear Augustine House Community,

Today Dr. Bonnie Henry announced a few changes to begin on April 1, 2021 that will directly impact life at Augustine House.

These are positive changes related to visits, meals, and isolation periods. We are reviewing these changes and will work with Fraser Health to ensure these changes are done in a safe manner. As soon as we have more details about how this will look in our community along with instructions from Fraser Health, with regard to infection control policies and procedures required, we will pass these details on to you.

We are looking forward to these changes and want to ensure we remain a safe and healthy community.

Yours sincerely,

Jackie Reiners
Executive Director
Augustine House
