

## For Better Retirement Living

March 3, 2021

Dear Community,

We have had an exciting morning today. Tim Horton's arrived this morning to provide donuts and coffee for Residents and staff.

What a treat!

The vast majority of staff and residents have received our second dose of vaccine and are busy building our antibodies. This has provided us all with a huge sense of relief. We continue to be required to adhere to all the current processes and protocols. To date we have not received any information from Fraser Health or the Ministry of

Health notifying us of any changes with regard to visits or outings. As soon as we do we will notify you. We are certainly looking forward to the relaxing of the Public Health order as more British Columbians become vaccinated.

In the meantime, we will continue to facilitate visits in our visiting areas. As the weather moves to spring temperatures we are looking forward to more outside visits.

We have moved to two settings for

For Better Retirement Living

lunch and dinner. This has promoted an increase in socialization for residents, with residents looking forward to coming to the dining room. We are looking forward to the time when we can have our dining room back to how we knew it; with four residents to a table; but this will have to wait until we have the go-ahead.

We thank you all for your ongoing support in this very hard but good work; the work of keeping our community safe.

Please stay safe and stay well.

Yours,

Jackie Reiners  
Executive Director  
Augustine House.
