

For Better Retirement Living

May 11, 2021

Dear Residents, families, and friends of Augustine House,

It is my pleasure to announce that we have hired Cathy Mason as our new Director of Care. Cathy comes to us with a wealth of experience in Long Term Care and Community Care in the Delta and Ladner areas. Cathy has a reputation as an exceptional nurse who leads by example. She will begin at Augustine House early in June. Until this time we are blessed to have Joy Hall acting as Interim Director of Care. Prior to retiring Joy was with Augustine House for many years.

Although life is not quite back to normal at Augustine House, it is heartwarming to see families visiting again, both inside and in the sunny weather outside. As a reminder, we have extended our visiting times from Thursday thru Sunday until 8 pm to allow evening visits. Please remember to make an appointment and when you come on site all individuals must be screened and documented to allow for contact tracing should this be required. Also, face masks and hand hygiene are our best defense against spreading Covid-19.

As more and more families and others in community are vaccinated, we are hopeful that the remaining restrictions will be removed. But until that time we ask that all individuals coming to Augustine House ensure that they are following all precautions carefully.

Stay safe and stay well,

Yours,

Jackie Reiners
Executive Director
Augustine House.
