

For Better Retirement Living

December 15, 2021

Dear Augustine House Community,

Christmas is just around the corner!

Although this is a time that many of us traditionally celebrate with family and friends, we would like to encourage everyone to remain safe. With the arrival of the Omicron Covid-19 variant we all need to continue to do our part to keep our community safe. I encourage each of you to follow Dr. Henry's advice: keep your groups small, wear masks when possible, and if you, or any of your group are feeling unwell, stay home.

Augustine House continues to diligently perform our infection control measures as outlined by the Government and Fraser Health. This includes rapid tests when needed for either staff, residents, or visitors. These are less invasive and time consuming than the full PCR test, but give us a good indication of infection in a short period of time. We thank you in advance for cooperating with us if asked to perform this screening. Our goal to keep everyone safe.

We would also like to thank each of our Residents for their patience with regard to the few supply chain issues we have run into. This has so far mostly impacted our food services. We have thankfully not had too many issues and our staff have worked diligently to find alternate sources or alternative items when possible. We expect that, as highways are repaired and goods begin to flow more predictably, these pressures will resolve.

From all of us at Augustine House we wish you a peaceful and safe Christmas with your loved ones.

Yours,

Jackie Reiners

Executive Director

Augustine House.
