

For Better Retirement Living

September 27, 2022

Dear Residents,

**We will be holding a joint
Covid-19 Booster and Influenza Vaccination Clinic
For Residents
Wednesday, October 12, 2022**

The Covid-19 booster will be the newly approved co-variant vaccination. Immunizers will be at Augustine House to provide both vaccinations (**yes, there will be 2 needles; one in each arm**). The Medical Health Officer recommends that Residents receive both vaccinations and that both vaccinations be received on the same day.

Watch for posters with information on when you should come to the Multipurpose room.

If you choose to receive either of these vaccinations at your doctor's office or pharmacy, please let Cathy or the LPN know.

Stay well,

Jackie Reiners and Cathy Mason
