

For Better Retirement Living

October 21, 2022

Dear Residents and Families,

As you may have heard, we have identified a number of Covid-19 positive residents in the building. Although this is not surprising based on the increase in cases in community, it is disappointing.

To reduce the likelihood of spread, we are closing the dining room and suspending group activities for the short term. We will provide room service as we have done previously. Residents who are not Covid-19 positive are permitted to leave their rooms. We do, however, encourage everyone to wear masks when in common areas in the building.

We continue to welcome visitors to the building, following the current protocol of rapid testing prior to entry and wearing a mask while in common areas.

Hopefully these precautions will stop any potential spread and allow us to open to 'regular business' quickly.

Yours sincerely,

Jackie Reiners
Executive Director
Augustine House
